PARIS FLOATED WITHOUT INJURY.

Big Steamship Hauled Off into Deep Water by Wrecking Tugs.

After Two Thousand Tons of Coal Was Lightered It Was an Easy Matter to Float the Vessel.

SHE WILL SAIL ON SCHEDULE TIME.

Had No Passengers Aboard When She Grounded in the Fog-Took on a Pilot Just Before the Accident.

The American Line steamship Paris, while groping her way blindly into this harbor through the dense fog Sunday afternoon, ran hard and fast ashore into the mud and sand on the west bank in the ower Bay. This particular spot has proven a most treacherous one for American Line vessels of late, for it was in almost the identical spot that the Paris grounded that her sister ship, the New York had the misfortune to poke her nose a month

The Paris remained in her muddy cradle until the tide had risen to the flood last night, when, with the assistance of half a dozen or more wrecking steamers, she was hauled safely into deep water. This was about 8:15 o'clock, and an hour later she steamed in and dropped anchor for the night just above the Quarantine

The point where the Paris went ashore is about half a mile southwest of the Quickstep bell buoy and a little over a mile to the eastward of Swinburne Island. No news of the mishap was received in this city until shortly before daylight yes terday. It was also reported that within an hour after the Paris had run in past the point of the Hook she took the ground lightly at West Bank, but managed after a great effort to free herself unassisted.

THE SHIP WAS LIGHT.

The ship was riding light when she

came into the lower bay Sunday. She had neither passengers nor cargo on board, being loaded only with her coal supply and water ballast. She had been to Newport News for her regular Spring overhauling, and was prepared to begin service to-mor-row, when she was scheduled to sail again

that she went into the mud and sand to the

depth of from three to five feet.
The Paris enjoyed comparatively fair weather along the coast, and met with no obstacles until she reached a point a short distance down the Jersey coast. That was General Garcia Delivered Over the on Sunday morning, when she ran into a mist that increased in density as the Paris approached the harbor.

Just outside of Sandy Hook she took

on board Pilot Gridley. She grounded as stated, and before day-

light yesterday a small boat was launche er was dispatched to notify the ves-sel's agents of her plight. The Merritt and Chapman wrecking companies were no tified and they at once set about to assist the Paris into deep water. The wrecking steamer G. D. Jones was sent down to the scene of the accident by the Merritts about wrecker William E. Chapman was sent down by the Chapman Wrecking Company. TUGS PULL AT THE STEAMER.

amount she drew when she struck, to 2214 feet forward and 1914 feet aft.

will sail for Southampton on schedule time The Paris was not injured by her ground-

AMERICAN LINER PARIS PULLED OFF THE MUD BANK.

Wrecking tugs yesterday released the big steamship Paris from the mud bank into which she ran during the fog Sunday. The steamer had on board 2,000 tons of coal, which was taken out into lighters. Her water ballast was pumped overboard. Wreckers then waited until high tide and the liner was easily floated. She was uninjured, and will sail for Europe to-morrow.

AILSA'S GRAND PRIX.

Nice, March 30.—The Allsa won the yacht race for the Grand Prix de Nice, which was sailed to-day. The Allsa had the best of the start, but the Satanita headed both her and the Britannia on the first tack. A fine whole sail breeze prevailed throughout the whole sall breeze prevailed throughout the first round, but later it became fluky.

On the second round the Alisa, favored by the wind, took the first place with the Britannia next and the Satanita third. The Alisa was fortunate in the next round, holding her lead and winning by two minutes and thirty-four seconds. The Satanita was second and the Britannia third.

JIM MITCHELL'S CHALLENGE. 5 Great Specials FOR THIS Anxious to Make a Match with the Californian at Any Time.

Big Jim Mitchell, the champion amateur nammer thrower of the world, had until yesterday refrained from commenting upon the recent performance of young Edgren, the Californian, who, it is reported, recently threw a sixteen-pound hammer 147 feet 71/2 inches.

threw a sixteen-pound hammer 147 feet 7½ inches.

"I read of Edgren's performance with interest, said the champion, "and I must say I was considerably surprised. Edgren, when he competed in this city last Summer, did not handle himself like a world beater. I think his best performance at that time was 125 feet and some inches. A few weeks later I met him at the games in Philadelphia and taught him several tricks in throwing the hammer. He was quick to learn and improved steadily, promising to develop into a great hammer thrower. I would like to arrange a match with the Californian this Summer, in the event of his coming East.

"I have in practice thrown the sixteen-pound hammer fully ten feet further than I did when I made my record, and with a month of good training I am satisfied that I can not only beat Edgren, but any other man in the world."

Mitchell now weighs in the neighborhood of 240 pounds, but he says he could reduce to about 210 pounds and be in splendid shape.

ST. LOUIS FAIR STAKES. The List Includes Some Fine Prizes and

Should Attract Good Horses. St. Louis, March 30.-The St. Louis Fair Association has announced the stake events for the Spring and Summer meeting. The

list is a promising one and is sure to attact some of the best stables in the country.

To accommodate the influx that is sure to come the association has planned extensive improvements, which will be commenced at once.

The list of events follows:
